2024/05/09 21:26 1/2 IPv6 Deployment Workshop

# **IPv6 Deployment Workshop**

• Date: 12th to 16th January, 2019

• Venue: Namgay Heritage Hotel, Thimphu, Bhutan

### **Workshop Goals**

This five-day IPv6 Deployment Workshop, teaches network operators how to deploy IPv6 on their network infrastructure.

### **Target Audience**

Technical staff who involved in Internet technology standards, local and national network infrastructure deployment, and day to day network operations.

# **Pre-requisites**

It is assumed that the workshop participants know how to use a router command line interface, do basic router configuration and have a working knowledge of an IGP (OSPF or IS-IS) and BGP fundamentals. Knowledge of the IPv6 protocol is helpful but not essential.

**This workshop is not an introduction.** The lab exercises use Cisco IOS configuration syntax.

**Participants are required to bring their own laptops.** These can be Windows/Linux/macOS and must have working wireless to allow participation in the hands on lab exercises.

#### **Class Size**

The workshop can accommodate up to 30 participants

## **Workshop Programme**

- Agenda (includes links to presentations and schedule)
- Instructors: Philip Smith, Tashi Phuntsho, Phurpa Rinchen
- Participants
- Workshop Survey
