

BGP Workshop

Date: May 2021Venue: Online

Workshop Goals

This workshop teaches the fundamentals of BGP, from introduction, through multi-homing techniques, to troubleshooting.

Target Audience

Technical staff who are now building or operating a wide area service provider network with international and/or multi-provider connectivity, or considering participation at an Internet Exchange point, or considering deploying IPv6 across their infrastructure and to their end users.

Workshop Items

- Agenda (includes links to presentations and schedule)
- Detailed Description
- Instructors: Philip Smith
